UP Fintech Holding Limited Reports Unaudited Second Quarter 2021 Financial Results

BEIJING, Sept. 10, 2021 (GLOBE NEWSWIRE) -- UP Fintech Holding Limited (NASDAQ: TIGR) ("UP Fintech" or the "Company"), a leading online brokerage firm focusing on global investors, today announced its unaudited financial results for the second quarter ended June 30, 2021.

"Market backdrop was relatively weaker compared to the first quarter, but I am happy to report that the Company still achieved substantial expansion in the second quarter," stated Mr. Wu Tianhua, CEO and Director of UP Fintech. "As we continue to invest in our internationalization, there was a significant increase in the number of newly funded accounts and the total account balance. We added 153,100 funded accounts in the second quarter, an increase of 353.5% year over year and 30.4% quarter over quarter; of these newly acquired accounts, over 60% came from international markets. Total account balance reached US\$23.9 billion despite challenging market conditions, nearly triple that of the same period last year and 11.8% increase from the first quarter of this year.

Total revenues were US\$60.2 million, a 98.7% increase from the second quarter of 2020. We increased investment in self clearing, user acquisition and talent recruiting, which are essential to our future growth, which resulted in increasing operating costs and expenses compared to same quarter last year.

Our corporate businesses also demonstrated strong growth in the second quarter as we continued to serve an ever more diverse range of clients. In the second quarter we added 51 ESOP clients, many of which were private firms with valuations in excess of one billion USD. The swift development of our ESOP business is a testament to our Company's ability to rapidly scale and market innovative new products and services; we launched ESOP just over two years ago and now already serve 216 corporate clients. We also participated in 17 IPOs in Hong Kong and the U.S. during the second quarter. We look forward to collaborating with our next generation clients as they grow.

Our wealth management business and proprietary self-clearing system continue to develop nicely. By the end of the second quarter, over 50.0% of clients were having their U.S. cash equities trades cleared by TradeUP Securities Inc. (formerly known as Marsco Investment Corporation). We also added 48 funds to our digital wealth management product, The Fund Mall, during the quarter.

Finally, we continue to focus on enriching the content our clients may engage with on our platform. We will continue to upgrade the products and services that we offer to both our individual clients, as well as our corporate partners, as we expand both our geographic footprint as well as the capabilities integrated into our leading fintech platform.

Use of non-GAAP Financial Measures

In evaluating our business, we consider and use non-GAAP net loss or income attributable to UP Fintech Holding Limited and non-GAAP net loss or income per ADS – diluted as supplemental measures to review and assess our operating performance. The presentation of the non-GAAP financial measures is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with the United States Generally Accepted Accounting Principles ("U.S. GAAP"). We define non-GAAP net loss or income attributable to UP Fintech Holding Limited excluding share-based compensation, impairment loss from equity investments and fair value change from convertible bonds. Non-GAAP net loss or income per ADS - diluted is non-GAAP net loss or income attributable to UP Fintech Holding Limited divided by the weighted average number of diluted ADSs.

We present these non-GAAP financial measures because they are used by our management to evaluate our operating performance and formulate business plans. Non-GAAP net loss or income attributable to UP Fintech Holding Limited enables our management to assess our operating results without considering the impact of share-based compensation, impairment loss from equity investments and fair value change from convertible bonds. We also believe that the use of these non-GAAP financial measures facilitates investors' assessment of our operating performance.

These non-GAAP financial measures are not defined under U.S. GAAP and are not presented in accordance with U.S. GAAP. These non-GAAP financial measures have limitations as an analytical tool. One of the key limitations of using these non-GAAP financial measures is that they do not reflect all items of income and expenses that affect our operations. Share-based compensation, impairment loss from equity investment and fair value change from convertible bonds have been and may continue to be incurred in our business and was not reflected in the presentation of non-GAAP net loss or income attributable to UP Fintech Holding Limited. Further, these non-GAAP financial measures may differ from the non-GAAP financial information used by other companies, including peer companies, and therefore their comparability may be limited.

These non-GAAP financial measures should not be considered in isolation or construed as alternatives to total operating expenses, net loss attributable to UP Fintech Holding Limited or any other measure of performance or as an indicator of our operating performance. Investors are encouraged to review these historical non-GAAP financial measures in light of the most directly comparable GAAP measures. These non-GAAP financial measures presented here may not be comparable to similarly titled measures presented by other companies. Other companies may calculate similarly titled measures differently, limiting the usefulness of such measures when analyzing our data comparatively. We encourage investors and others to review our financial information in its entirety and not rely on a single financial measure.
